## ABOUT US

The Triple Helix Association (THA) is a not-for-profit, non-governmental association with scientific purpose and a global reach. It was founded in 2009 by leading international scholars in innovation and entrepreneurship to promote the study of the interactions among academia, industry and government.

Its main scope is to **advance the scientific knowledge and operational capacity to ignite and manage academy-industry-government interactions** (Triple Helix) to foster research, innovation, knowledge and technology transfer, entrepreneurship and regional sustainable developments.

The Triple Helix Association is open to both **individual members** (students, public policymakers, researchers, & practitioners) and **organizational members** (universities and affiliated units, research institutions, incubators, science parks, TTOs and Technopoles, governmental institutions and private consulting firms).

## 10 REASONS TO JOIN THE THA:

- 1. Knowledge sharing** via exchange of good practice and capacity building that will increase your competitiveness and leveraging of innovative models. In addition to this, you could participate with a discounted fee to THA trainings for Entrepreneurial University strategy setting and Triple Helix operationalization.
- 2. Networking.** Through THA Thematic Research Groups and SPIRAL you'll be supported in identifying peer reviewers and partners for innovation-related activities. The THA will allow you to connect with leading scholars and researchers in Triple Helix from all over the world.
- 3. Access and contribution to leading research findings.** Full access to THA scientific publications and frequent calls for papers for publication in books or scientific journals.
- 4. Recognition.** You'll receive a membership certificate and become part of the THA like-minded community.
- 5. Visibility.** You'll be displayed in the THA web site and could present your experience in the monthly newsletter, Helice magazine and TH Talk series.
- 6. Public funded projects.** As member you could be involved in the co-design of research and implementation projects to be submitted for public funding.
- 7. THA Meetings.** You could propose to host the Triple Helix Conference or the Summit or specialized workshops, leveraging on the THA brand and scientific support.
- 8. National Chapters.** You'll be entitled to set up a THA Chapter in your country, becoming the THA national hub for Triple Helix debate and initiatives.
- 9. Specialized events.** You could join free of charge THA events and webinars, and could propose the co-design and delivery of new titles.
- 10. Sponsorship.** You could sponsor THA events and awards and have displayed your logos on the main communication. You could also sponsor Special Issues of the Triple Helix Journal for publishing the research outcomes of your institution.
